Engine Piled in a Heap Cars and Seven Miles South of San Jose.

SAN JOSE, May 9.-A serious wreck occurred at Edenvale, seven miles south of this city, at 8:20 this morning, when the Overland Limited, due here at 8:35, was ditched and a tramp killed, one Chinaman fatally injured, thirty or forty Chinese and passengers more or less injured, and the fireman, M. Stone of this city, had his right leg so badly injured that it has since been amputated.

Truck Under Car.

The accident was due to a truck under a car behind the baggage car jumping the track and striking the switch as the train was making a speed of fifty miles an hour.

The engine, one of the newest and most powerful on the road, the tender, the baggage and mail car and one Pullman were telescoped and piled in a heap, and of the nine cars only the last was undamaged.

Murled From Gar.

Engineer William Brown was hurled from the cab, but he struck the earth in a mud hole and was uninjured. The car behind the tender contained twenty-one Chinese prisoners under guard of United States Marshal B. J. Daniel and deputies, who were conveying them from Tucson for deportation.

Nearly every one of them was injured, several seriously, and one fatally. A relief train conveyed the injured to this city, where they are being cared for.

States Steel Company is going to stand every assistance to San Francisco. You by the people of San Francisco. This is can have all the structural steel you wish the announcement made by Frank at the same prices. Secure Wrong Did Not Have Nerve to Go Back.

BELLINGHAM, Wash., May 9.-A special to the Herald from Vancouver, B. C., says:

The Imperial Limited was held up on the main line of the Ganadian Pacific Railway near Kamioops, 250 miles from here, early this morning. The robbers compelled the engineer to uncouple the mail car from the rest of the train and haul it a mile away, where they rifled it of the registered letters.

The robbers were under the impression that the express packages were in the mail car, but when they found that the express was in another car they had not nerve enough to go back for it, and slipped away into the hills.

The robbery occurred near a small station called Furrer, between Kamloops and Ducks.

Special officers have been sent up from Vancouver to pursue the train robbers.

The bandits made no attempt to interfere with the passengers.

Sign of Weakness Is Shown by Any of the Big Corporations.

Public interest on both sides of the affairs owes its demise, in my judgbay is at present centered in the work- ment, to the fac. that its directors

A Kindergarten Song.
Said the poppy to the puppy.
"Silly little thing.
You have not my rosy ruffles
Nor my emerald ring;
When your mouth is open, whining,
I can see your scarlet lining.
But you're nothing, after all.
Felt a little furry bail!"
Oh, the poppy was so haughty,
And the puppy was so naughty!

Said the puppy to the poppy—
And he barked with glee—
'You have one long foot to stand on,
I have four, you see!
I cut, run about the garden
Just like this—I be your pardon!"
So he selzed the flower gay,
Snapped her off and ran away.
Oh, the poppy was so haughty!
And the puppy was so naughty!
—Helen Leavenworth.

SICK

Ache they would be almost priceless to those who antier from this distressing compliant; but fortishestly those who ence try them will find these little pills water.

Is the bane of so many lives that here is where we make our great boast. Cur pills cureit while others do not. Curter's Little Liver Pills are very small and way easy to take. One or two pills makes does. CARTE MERCHAN CO., NEW YORK,

Here's where big buying begins to count. For three weeks we have been called upon to supply a demand that could not possibly be foreseen. A demand many, many times greater than Oakland ever experienced before.

And what was the result?

A steady, orderly, constantly increasing passage of goods from our big basement warehouses to the hands of the consumers. Thousands and thousands of dollars worth. No confusion, no disappointment, no broken lines, and no raise in prices.

And what does that prove?

It proves by a supreme test the capacity of the buying and selling system of Kahn's. Where else today can you find such quick response at the counter, such rapid transit of cash, such order, such assortments, such perfect mercantile balance?

True, one of the members of our firm was speeding East for more supplies while San Francisco was still afire. True, we telegraphed for thousands of yards of materials and hundreds of dozens of articles, but all these were for the months to come, for Kahn's had plenty, even in the emergency, which goes to show that the old saying is true, "You can always depend upon Kahn's.

Knights of the Royal Arch, the liquor right to stand with the people and; work against the nomines of the con-vention if the wishes of the voters are to be stifled and bossism and graft men's association of this State, a branch of which is established in this to be stiffed and bossism and grati-are to rule." These are strange words from an apostie of party loyalty, from one whose life has been given to spreading the doctrine of street party-regularity under all circumstances and conditions. Grosvenor a "bolter," an independent? Perish the thought!

—New York Globe. "Oakland, Cal., May 7, 1906.—A few days ago, an appeal was made to you by the Knights of the Royal Arch in behalf of decency and order, setting forth that the good names of our city be not besemirched by drunkenness or rictous conduct.

"As the appeal has, in many cases, been unheeded, we now demand that you live up to the requirements as get forth in that letter otherwise we, as

More Comfortable in the Country.

Then why keep the family in the city this summer in the discomfort and dust of rebuilding? The Southern Pacific is making low, long-time secursion rates to simmer resorts from San Francisco and hay points. Ask the agent.

A special meeting of the Bricklayers' Union No. 8 of California, to be held Wedresday, May 9th at 8 o'clock, at Building Trades' Council Hall.

W. CARTER, Pres. you live up to the requirements as each forth in that letter otherwise we, as an organization, will demand that the license of such violators be revoked.

"We again remind you that you must not sell liquor to soldiers or sallors in uniform. No flasks or borties of liquor

The stuggling author opened the let-ter the postman had just brought.

It was from his publisher and contain-ed a check for a large amount.

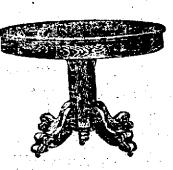

"Well." he chuckles. "I seem to have found the secret of write living at last!"

CASES TREATED AT

RECEIVING HOSPITAL

The increase in the number of patients treated at the Receiving Hospital has been large, but the force of suggous has had little difficulty in handling them.

According to Steward Corchert's recording to the fine counters.

Postmaster Schmidt reports that could not otherwise be had, can be charge out this side of the content of the content country and as result of the relief work of the content of the supplies given out in ference, all the supplies given out in made.

Statistics relating to the first speaker, "if there were that could not otherwise be had, can be recorded to the first speaker, "if there were that could not otherwise be had, can be s

message in the ordinary letters or the alphabet ready for delivery upon receipt.

The transmitting device is provided with a keybourd similar to that of a typewriter. The depression of any key will revolve a disc with contact poles, which will cruse the armature of the receiver to vibrate as the lape is being drawn through the sounder, and the dots and dashes are traced by a fountain attached thereto. With the princing of telegrams in ordinary letters the operation is somewhat rimilar, although requiring a differently constructed receiver. This receiver is built on the principle of a typewriter princing from a type wheel. The discs cause the armature to release this type which is revolved by a motor that travels the wheel the distance at which the various letters are brought into contact with the plate of the typewriter, and after printing the letter it is mechanically returned to its original starting point. There is also a mechanism by which the paper, is brought into alignment at the end of each line, as well as one for the spacing between words, and the changing between when completed.

The instruments are confished to work either on telegraph lines or wheless circuits, making it possible to meet all emergencies in the transmission of messages by electrical currents. Mr. Roussel states that he has been requested by the bureau of equipment of the United States navy to demonstrate its practicability for use by the navy in the transmission of wheless messages. He states that he has been requested by the bureau of equipment of the United States navy to demonstrate its practicability for use by the navy in the transmission of wheless messages. He states that he will fulfil the request as soon as the necessary instruments, are, completed. The cost of the instruments will range from \$25 to \$200.

Mr. Roussel says that his inventions are protected by patents emoodying the "transmitter," the Morse signal recorder" and "the electrically-operated type-writer." He has also been awarded similar patents in Canada and Gre

WAS THE EARTHQUAKE AND FIRE RESULT OF ALLEGED WICKEDNESS IN SAN FRANCISCO?

Some Say the Calamity Was a Visitation of the Heavenly Powers.

divines of the coilege town have given and righteousness, that we call God, THE TRIBUNE statements embodying their views on the following ques-

"Was the earthquake and fire in San Francisco the result of alleged wickedness in the city?"

"Could the calamity be regarded by religious folk, or others, as a visitation of the Heavenly Powers?"

In olden days the prophets might have been expected to call upon the people to put on sack cloth and ashes, and do pennance, to satisfy an evenging power that had devastated the city, by "the breath of his nostrils." The Berkeley divines, representing almost all denominations, do not all seem inclined to take this view of the great calamity. Their statements to THE TRIBUNE follow:

BY JOHN K. MeLEAN, D. D., President of the Pacific Theological

Semmary. Were the fre and earthquake a visit-Without the one a material unilife impossible without them. There abomination or maketh a lie."

cord with its beheats.

As for the lesson of the fire, it issued out of the same forces that were liftwhich could scarcely stand alone, let also." alone the well known restlessness of BY CHARLES K. JENNESS, D. D. the situation, not man moral, or if you will, in so far as human greed, and caused the trouble.

RUINS OF THE Y. M. C. A. BUILDING, CORNER MASON AND SAN FRANCISCO.

SAN FRANCISCO, May 9.-Letters and that the country has misapprehended the character and extent of the damage

statement on this subject. One of the best known local observers who has paid considerable attention to details is Willis Polk, the architect. Mr. Delk has been in constant communication with all of the local authorities and has been a member of the general relief committee, and was one of the organizers of the committee on reconstruction. He has had conferences with all the leading engineers, architects and builders, and as a rule their opinions coincide with his in the mair facts which may be briefly stated as follows:

mew San Francisco should be beautiful the mark facts which may be briefly stated as follows:

The earthquake part would doubtless have happened just the same if none but moral caints had dwelt along the two hundred mile furrow; just the same if no foot of man had ever trod or eye of man seen this ruin of the Facin sea.

I do not believe it was ever in God's earthquake came they collapstrated that the structure in the structure is the structure actions. The water supply came to the city over greative ti ought for men to huddle together by the thousands, or to build themselves up in layers six and sixteen stories deep. If men, good or bad, will do that foolish thins, they must take the consequences. Particularly if they think too lightly of the latent forces of gravitation and do not take and so the structures action to the stories of gravitation and do not take and so the stories of gravitation and the stories of gravitation and do not take and so the stories of th

saparated reservoirs and service pipes.

One further judgment has been clear to me. Houses and lands and stocks are valuable; but that which is the stocks are valuable; but the waste of the city, where the ground is of a rock formation and very solid, there are in the unburned district Mr. Polk will buildings of ordinary construction that are absolutely undamaged by the earth under the buildings of ordinary construction that are absolutely undamaged by the earth under the buildings of ordinary construction that he was peculiarly fortunate in that he was able, through the use of an automobile, to visit nimes this entire section of the guildings, some of which were erected greated tours of inspection he examined to the examined that the versure is, there shall your heart be though nor steal, for where your treasure is, there shall your heart be though nor steal, for where your treasure is, there shall your heart be the construction that and were damaged in that quake, and on that account had for years been familiar with an animarks in the city, and in these he could discover no evidence of any amage by the recent quake.

Of the other hand, in the higher parts of the chery solid, there are in the other hand, in the higher parts of the chery solid, there are in the other hand, in the higher parts of the chery solid, there are in the other hand, in the higher parts of the chery solid, there are in the other hand, in the higher parts in the other hand, in the higher parts of the chery solid, there are in the the was proble, thought are associated by defect the examined of the buildings of ordinary conduction of the buildings of ordinary construction that he was proble, through the use of an automobile, to visit minor this our an automobile, to was previous to the earthquake, and on that account had for year the earth quake.

Of the other hand, in t

FIRE DID IT.

The great calamity that botell San Francisco was the fire and not the earthquake. The fire originated in the south of Market district, where furnaces had been banked over night, and where the general character of the buildings were filmsy. The banked fires were in almost every case located without proper foundation, on filled ground. The water supply of the city passing over such filled ground was broken, the fire department with perhaps 100 individual or independent fires to c und itself with the water supplements of the control of the city of the c

CHICAGO, May 9 .-- At the close of the first week of the structural from work-ers' strike, Thomas Darragh, a member of the Union, was shot and killed late

of the Union, was shot and killed late last night as a robber.

Darragh, it is said, stole a watch from Clifford N. Spencer, an electrician. The men had spent the evening at a saloon patronized by iron workers, and left the place together.

The robbery occurred at Madison street and Fifth avenue. A gold watch and \$40 in money were taken by the thief, who then ran south in Fifth avenue. Spencor followed, calling on him to halt. Addams street the thief stopped and struck Spencer on the head with a club. The victim fell unconscious, but his cries had been heard by James McGoldrick and E. L. Cudoback, watchman, They saw the thief beating Spencer and also saw him throw a watch into the street. Both followed the robber and when he refused to obey their demands to stop McGoldrick fired. The builet ponetrated the neck of the footpad and he died soon afterward at the Chicago Emergency Hospital. Spencer and McGoldrick were arrested.

MATERNITY HOSPITAL IS ESTABLISHED

The new maternity hospital has been established at the Traction Company's building, on San Pablo avenue. At a reof the First Congregational Church, the new Alameda County Maternity Assoclation was formed and will work in conjunction with the Red Oress Society,

Mrs. Bunnel was chairman of the afternoon and Ars. Oscar Long was elected president of the new organization. Miss Mabel Gray is secretary, and va-

rious other committees were elected as follows: Finance, Dr. E. E. Baker, F. M. Wilson, F. C. Havens, D. Edward Collins, Mrs. Isaac Requa, F. M. Smith; food supplies, Mrs. Marcuse, Mrs. J. S. Emery, Mrs. Broadwell; medical committee, Dr. Ewer and Dr. Idliy as acting surgeons; advisory board. Rev. C.

PRESIDENT CURT TO SENATORS

0.—Senators Flint and Perkins and ex-Representative Loud called on the President yesterday to ask his influence in having incorporated in the postorice appropriation bill a large in the postoffice appropriation bill a large payment to the Oceanic Steamship Company along the lines of the provision of the ship subsidy bill. The Oceanic Company doclares that unless more help is extended by the government it will be extended by the government it will be compelled to send the steamers to Japan. The ship subsidy bill its apparently moribund, and the Californians are anxious to have the line to Australia maintained.

The President, it is reported, was somewhat curt to the Californians. He did not walt for an explanation, saying he had received a telegram from Spreckels & Brothers, and was familiar with the matter. He added in effect that until the Senate took action on the Philippine tariff bill he would not go out of his way to assist a steamship company. He spoke with considerable feeling against the Senate's action in holding up the Philippine bill.

WM. H. MACKINNON PLANS THEATER

William H. Mackinnon has a plan on nand to build a second theater for the

Bell Theater Company, at Twenty-second and San Pablo avenue. Mr. Mac-kinnon proposes to erect a fine structure, for he has had wide experience in the matter of building theaters,

STORE No. 415

Tenth and Washington Sts. - Oakland

Fig. are bringing you something new—a system. Something of advantage to you—quality. We stand for direct buying, direct selling and cigar quality that excels. Compared with ordinary methods of cigar retailing, our system will yield you-better cigars for the same money-more cigars for equal money—and equal cigars for less money.

We secure all this by taking the entire output of a dozen great mosern facfories that raise their Havana tobacco on their own plantations.

We buy enormously, inspect rigidly and condition our cigars scientifically. Our system brings the smoker closer to the sources of production, and assures better cigars and more dependable quality than can be obtained in any other way. By our system we cut out five distinct "in-between " profits. We put the, saving into the quality of our eigars.

To test us, ask for a CAPT. MARRYAT Invincible---4-for-25 cts., box of 25, \$1.50. This makes it easy?

Whenever a sore or ulcer does not heal and shows signs of becoming chronic, it should arouse suspicion, because many of these places lead to Cancer. It may appear as an ordinary sore at first, and is given treatment as such, with some simple salve, wash or plaster, with the hope that the place will heal, but the real seat of the treuble is in the blood and cannot be reached by external remedies, and soon the sore will return. After

awhile the deadly poison begins to eat into the surrounding flesh and the ulcer spreads rapidly, becoming more offensive and alarming until at last the sufferer finds he is afflicted with Cancer. Cancerous ulcers often start from a boil, wart, mole or pimple. which has been bruised or roughly handled, showing that the taint is in the blood, perhaps inherited. Another cause for non-healing ulcers

I was suffering greatly from a cancer-ous ulcer on my left breast, which had begun to eat, and at times would dis-charge very offensive matter. I knew the trouble was hereditary as an only sister, my mother and two of her-sisters died of Cancer. I am fully sat-isfied I would have sone the sameway but for S. S. S., which oured me. Beiton, Mo. MRS. J. CASSELL.

sores is the remains of some constitutional disease or the effects of a 10 spell of sickness. S. S. S. goes down to very root of the trouble and cures so theroughly that there is never any sign of the trouble in after years. As soon as the system gets under the influence of S. S. S. the place begins PURELY VEGETABLE. to improve, the discharge gradually grows less, the inflammation leaves, the flesh resumes

its healthy color, and soon the sore is well, because every vestige of the cause has been removed from the blood. Book on sores and ulcers and medical advice without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA. AL

SCRANTON, Pa., May 9 .- Work will be

resumed by the mine workers throughout the anthracite field tomorrow.

This was decided upon at the closing session of the convention held yesterday atternoon. At the morning session the agreement entered into on Monday, between the operators and the sub-scale

agreement entered into on Monday, between the operators and the sub-scale committee was formally ratified.

A few of the radicals once more took the floor when the rution to ratify the Monday agreement was made, and once more urged that the suspension be turned to a strike. They were hopelessly in the minority.

The convention adopted resolutions concerning the state constabilary and providing for the mane workers as an organization taking an active part in politics in the nomination and support of legislative candidates.

Fresident Mitchell was not present during the earlier proceedings of the convention. When he entered the hall he was colled upon for a spicern. He said.

"This will publish be the last time that I shall address you, and it might be well for me to tay one or two things. Some are inclined to believe that he cause we have not secured an advance in ways or any improvement in the conditions of only want in a few have not secured in the conditions of only was the last the heavy of any last the hast of the believe you have taken the most advanced as a few and the history of this movement.

Tou have secured what you have never

Thomas Taylor of Leland, Idaho, is dead, acording to the records of Alameda country, but have been made there would have been a reduction in the relired mere would have been a reduction in the relired week and to require the region. It is not require the region I need to repeat the workers to come back first the organization. At that time there were only \$4,000 members. At the close of that year there were \$6,000 members in the organization. Had not that tour been made there yould have been a reduction in wages, according to reliable intermation that I have in my por-session. My information that the relireacy were ready to increase the working day from oline to ten hours, according to require the engineers to work seven days in the week and to require their men to work twelve hours inslead of eight. If this is true, then we have won a victory."

Thomas was \$470.70, but he could not be found and seven years later his estate was probated and distributed to his sister and brothers. County Clerk Cook received a letter from Taylor yesterday stating that he was alive and well and wished to know what was coming to him. He did not explain his silence of thirteen years. He must now deeped upon his

At n meeting of the directors of the Onkland Chamber of Commerce, the speckel committee appointed to aid in lo-cating San Crancisco business houses who desired to secure either temporary or permanent locations in Oukland, re-ported progress and stated that they were working in conjunction with the were working in conjunction with the Real Estate Association, the members of which were not charging commission on properties leased through the Chamber of Commonce Committee. Upon motion of Director Milic: seconded by Director Lerch, the tollowing resolution was unanimously passed and ten secretary instructed to send copies of same to the various chambers of commerce throughout the State;

THE E. P. VANDERCOOK CO.

1018 Broadway, Oakland, Cal.

AUSTIN SAYS

Notwithstanding the unparalleled demade for downtown husiness properly and for factory and whrehouse sites, we must consider the wants of home-seekers, both reniers and buyers. My list of eall kinds of property is, as alwaya, complete and up to date. Our prices are normal and renis the same and a plentiful supply for all. You will find the prices of the properties I advertise not inflated at all, but many of them REDUCED. Those following prove it. My corps of competent, courteous salesmen is ready and able to handle your business in their customary, thorough manner. Owners can do their part and serve themselves as well by listing their proparty here for quick results if the prices are fair and reasonable—not otherwise. If you don't see what you want here, we probably have it anyway. Call in and see.

That pretty Piedmont cottage on Walsworth avenue, 4 rooms, bay window, high basement, bath, etc., etc., is still for sale at \$1850. No change in that price.

\$1450. This is reduced: 5 rooms, all large, high basement, a sunny, dory, plain little home for a little money. This lan't stylish, but is good as far as it goes. On West Fourteenth street. \$3000 is the same old figure for 6 large rooms, porcelain bath, large porch, combination fixtures new, never cocupied, story and a haif. Lot 145 feet deep; swell new neighborhood, half block to Grove street on Appar or Thirty-ninth, and 2 block from Key Route Depot at Fortleth atreet.

Fortleth atreet.

\$2750—Store and a very good flat on the best business street in West Cakland. Business all around it. This ought to figure \$1000 for the lot and \$2500 at least for the building, but the owner really wants to sell. You'll never be sorry for at least looking at this.

\$2000—Colonial cottage of 4 rooms and ath. Lot 70 feet front, irregular in hath. Lot 70 feet front, tregular in shape, prominent avvnue, corner, 2 blooks from the new Key Route and will be business property. Fire place to build a couple of little stores on the vacant part of the lot.

\$3000—Model in every sense. Furnished completely. Cottage of 7 rooms, every convenience, open iswn, to foribe incote that); abundance of vines and shrubbery, cannot be adequately described here; obstitio cars right there. Rey Route station about a block away; high greund, near the lake, healthleef locality, in fact for \$20,000 you could improve on its cost and size but not its beauty and comfort. If you are looking for a home in its full sense and can afford \$3000, seeing this will well repay you.

FOR SALE—5-room house; lot \$52125; one block from car, 414 7th st. s
FOR SALE—Four elegant new houses on 25th at. near Telegraph ave.; tiled bathrooms, beam cellings, and everything up to date. These houses are bergains and will sell cheap on easy payments; they are within 500 feet grow Key Route ferr yline. Inquire 3. Corant, 534 25th st., or 450 10th at. s

NORMAL SCHOOL

The Board of Education Monday night granted to Dr. Frederic Burks, president of the State Normal School of San Franolso, which was destroyed in the fire, and to the students of that institution, the privilege of occupying the detached building of four rooms at the Grant school to be used as a headquarters until they can again take up their work in San Francisco.

In San Francisco.

The school directors also decided to allow the student feachers of the Normal School to act as assistants to the teachers of the Oakland School Department, that they might gain the benefit of the practice in teaching thus afforded.

The only condition imposed by the Board was that the tudents of the Normal school be installed in the Oakland school rooms only at the request of the principals and teachers of the schools. This condition was imposed in order that there might be no friction between the regular teachers and their student as sistents. Dr. Burk has assured the there might be no friction between the regular teachers and their student assistants. Dr. Burk has assured the school directors that all expense consequent upon the use of the rooms at the Grant School, by the State Normal School, will be met by the San Francisco institution, which will simply be accorded the use of the building rent free.

MORE PUPILS.

There was at first some question as to the wisdom of allowing the stidents of the Normal Behoof to not as ansistants to the regular teachers of the Onkland department, but it was pointed out that many of the purples of the San Francisco schools, which have been destroyed, would have to be accommodated in the schools of this city for some time to come, and that the assistance of the student teachers would enable the present classes to be considerably enlarged without placing too heavy a burden on the regular teachers. Superintendent McClymonds assured the members of the board that he believed that the school department would ready be both financial and educational benefit from the innovation, and on the recommendation of President Pratt, it was decided to try the experiment for the rest of the present term, when if it was found to be undestrable, a change could be made. The Oshitand Relief Committee was granted the use of five vacant rooms at the Lafayette school, in which to store the clothing removed from the Lincoln school, which will be opened tomorrow morning. The members of the Relief Committee have assured the directors that they will be prepared to vacate the rooms in plenty of time for the opening of the next term, which will be as soon as the rooms at the Lafayette school department.

FINANCIAL PROSELEMS.

Upon the recommendation of Suparin-FINANCIAL PROBLEMS

FINANCIAL PROBLEMS.

Upon the recommendation of Superintendent McClymonds, the president of the board requested the classification and financial committee to begin a systematic investigation of the education and innancial problems which will confront the Oakland school department at the opening of the next school term. New conditions have arisen through the destruction of San Francisco, and the dimaging of the Oakland school buildings by the carthquake, which make it necessary for the department to be prepared to meet unforseen smergencies. A resolution was adopted to pay at once all bills on the Oakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the board adjourned to meet next Michael Carlot on the Cakland High School and the School of the Cakland High School and the School of the Cakland High School and the School of the Cakland High School of the Cakland H

EARTHQUAKE AT **GIBRALTAR**

Gibraltar has withstood the earthquakes of cons. A great city built of re-enforced concrete would be a Gib-ralter fashioned by the hand of man, impervious to shake impregnable to

John P. Herrmann, one of the bigrest real estate operators and builders of St. Louis and the Middle West, who of St. Louis and the Middle West, who has been over every inch of devastated San Francisco, declared today that only with structures of re-enforced concrete can the new San Francisco rise indestructible.

"There need be no restrictions of allight of the concrete" said.

titude with re-enforced concrete," said Mr. Herrmann todas. "Architecturally, it may be made beautiful. Each building will be monolithic, one piece of foundation work from base to roof. It is absolutely fire-proof and cannot be shaken down.

"Though in re-enforced concrete we have advanced one great stride beyond class A steel-brick structures, ye have had the lesson before us for ages. The first principle of the Egyptian builders was to build indestructably, Only there are these vast differences in what modern science can do with re-enforced concrete:

You can build cheaply.

"You can build quickly,
"You can build luxuriously,
"You can get about as low fire insur-

ance rates as the Egyptians did on the pyramids. "San Francisco had no good exam-

ples of re-enforced concrete buildings. ples of re-enforced concrete billidings. In some of the larger buildings there were re-enforced concrete floors. They are unscathed. A few smaller buildings of re-enforced concrete still remain unscarred monuments on streets through which the flames swept."

Enstern architects and engineers who know the splendid examples of re-enforced concrete work in New York

who know the splendid examples of reenforced concrete work in New York
and other cities agree thoroughly with
Mr. Herrmann. Theodore H. Skinner
of Boston, architect of the latest laboratories for the Massachusetts Institute of Technology, who is now in San
Francisco, had this to say of re-en-

forced concretes

'It embodies all the stiffness of steel-brick with this salient advantage, fire can never mar it. It is true that several steel-brick buildings are now standing, but merely as fire-guited shells. This could never happen with re-enforced concrete."

It would searn from these and other roed concrete:

It would seem from these and other opinions of high value that re-enforced concrete should solve the problem now before the reconstruction committee. There is no style of building, high or low, that cannot be built of re-enforced concrete. The Underwriters' Engineer-ing and Construction Company, of 84 West Twenty-sixth street, New York,

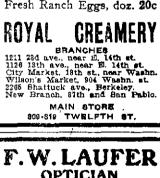

West Twenty-sixth street, New York, and 178 Federal street, Boston, with offices now at 604 Mission street, San Francisco, has shown the country some magnificent specimens of re-enforced concrete work.

Professor Lewis J. Johnson, of the Devision of Engineering of Havard University, who built the great stadium at Cambridge, is one of the great staff of experts engaged in re-enforced concrete work, and believes that it will replace brick-steel as brick-

it will replace brick-steel as brick-steel replaced wood.
For San Francisco re-enforced con-crete should be the great solution of a future city of the permanance of Gib-raltar, the beauty of Washington: A city imperishable;

A city sanitary:
A city beautiful.

WANTED—Manufactorics.

Oakland.

WANTED—Manufactories at Coos Bay Oregon: free sites on the water wont for all manufacturers looking for new locations: the advantages at Coos Bay for manufacturing industries are unexcelled anywhere on the Pacific Casst; we have the tinest harbor between Ban Francisco and Paget Sound, and the movement for the harbor's improvement will result in giving us a depth of forty feet on the bar at low tide; Coos Bay is the terminus of the Southern Pacific line now building itom Ontario through Central Oregon; a half dozen other transcontiental rallroads will find Coos Bay eavailable for a terminus. The coos Bay country is underlaid with 895 million tons of coal equal to the Australian coal, and the mines open on tide water; 35 billion feet of standing imber is tributary to Coos Bay; the country is hashifully, the climate likeal, living is cheap, wages for labor are reasonable, and never before was there such an opportunity for capital to engage in manufacturing as is now offered at Coos Bay. Address Chamber of Commerce, North Bend, Oregon.

FOR SALE—The only laundry in Calistoga; for particulars address Mrs. Persuson, Lincoln avenue, Calistoga. Californin.

FOR SALE—The only laundry in Calistoga; for particulars address Mrs. Persuson, Lincoln avenue, Calistoga, and the manufacturing as is now offered at Coos Bay. Address Chamber of Commerce, North Bend, Oregon. W

BERKELEY, May 2.—Since the great confingration across the bay many have asked this all-important question:

"Waere will the new Hopkins Institute of Art be located?" Prominent men of Berkeley, who were closely affiliated with that great art institution are auxiously awaiting for a move to be made toward the crection of a new building. In all probability that institution will be more close y connected with the University of California than ever before. Some suggrestions have been made that the new Hopkins Art Institute ho situated in Berkeley. The majority of the poople are in favor of this move. It is most filing and matural that it be bounded in Berkeley. The majority of the poople are in favor of this move. It is line propole are in favor of the second of the bounded of Berkeley. PROMINENT WOMEN

BERKELHY, May 9.—The home of Mrs. Bernard Moses at 2225 College ave-Mrs. Bernard Moses at 2225 College avenue was the scene of a busy gathering last Saturady afternoon when the ladies of the different sewing societies about town congregated for the purpose of discussing many important subjects. Twenty-five women were present, among them representatives from fifteen sewing chicles. Several projects whereby the refugees located in the college town might become self-supporting were discussed. Mrs. Warran Chensy took up the subject. She suggested as a means to an end, that a census of the refugees receiving assistance through the ratival in Berkeley.

Mrs. Obensy stated as there was a dearth of competent women dressmakers, they should soon be at work, and become self-supporting again.

In the discussion of the sewing done it was found that women's and children's apparel was needed, rather than infants.

INTURED WHITP

INJURED WHILE SEEKING PARENTS

Seventy years old and cured of stomach-trouble of fifteen years' standing. "I have tried several bottles of Nau's Dypagash. Ours and it has cured me. I have had atomach trouble for fifteen years and my friends thought my case hepeless. For trailve years I could not sat uncooked fruit, thought I would rather die than live; pains would always come three or four hours after noon dinner, acids would almost set me crazy. Your medicine is four hours after noon dinner, some almost set me crazy. Your medicine is the best on the market, as I tried most everything, including physiolass treatments, but nothing reached my case.

Sam seventy years of age."

GUESTS GATHER AND WEDDING MARCH BEGINS

WICHITA, Kan., May 9,-With guests gathered for the wedding ceremony, and as the organ began the

wedding march, Miss Ads May Ballard refused to wed. Relatives and the groom, George R. Brown, pleaded 🛧 with the bride, but in vain. Miss Ballard gave but one answer and refused to make clear her meaning. * She declared that before the ceremony was performed "three or four things must be straightened out." * This was ber reason for refusing to go on with the ceremony.

The wedding party was gathered in the pariors of the bride's home. The invited guests were chatting * and gossiping as the very minute for the commencement of the ceremony approached. As they paused * for the entrance of the bridgi party, the parlor door was opened and one of the ministers stepped into the * room. He came from the bride to bear her refusal to marry the man to whom she had engaged herself. * * To the assembled guests he made known the message he bore.

121 TO 159 KÁNSAS ST. SAN FRANCISCO.

BERKELEY, May 9.—at the regular meeting of the Board of Education held last night the most important question that came up before the members for consideration was the project of changing the plans of the two schools, one located on the corner of Beaucroft way and Grove street and the other located on Pledmont avonue. Owing to the lack of monay it was thought hest to make g Pledmont avonue Owing to the lack of money, it was thought best to make a change in the specifications of the con-tract so that wooden buildings should be constructed instead of brick buildings as

debate on the question and even though

The members of the board had a lively debate on the question and even though the opinion of Assistant District Attorney Everett Brown on the proposed change was read the matter was questioned and argued until it was finally left in the hands of the Finance Committee to make a formal report on next Tuesday night

CLOSING OF SCHOOL.

The question of prolonging the school year for one week was also made the subject of some animated talk but the matter was finally put to a vote and the upholders of the measure were voted down which caused the members to shake hands and resume their smiles of complacency once again

At eight o clock President Weir's gavel brought the board to order and the roll being called all members were found to be present. Before proceeding to the discussion as to what should be done in the next of changing the contracts so that the two proposed schools should be consistent of the matter of changing the contracts so that the two proposed schools should be consistent of the matter. He rendered the opinion that in all cases the consent of the contractors was necessary under the proposed that the strict of not plane and then after the proposed that the strict of the matter of the blad should be consistent of the contractors was necessary under the proposed that the strict of the matter of the side for by the correct titing to do was to advertise for not plane and then after the proposed that in all cases the consent of the contractors was necessary under the date of receiving the blds folor a holl day, no crecks could be drawn by the contractors and handed in with their blds as called for by the matter of the blds for a holl day, no crecks could be drawn by the contractors and handed in with their blds as called for by the open and the part of the contractors was necessary under the date of receiving the blds folor in the original contractors and handed in with their blds as called for by the open and the part of the contractors was necessary under the date of receiving the blds folor and the part

ochractors and handed in with their bide as called for by the ber 4 Therefore the only legal remedy was to reject all bide and acvertise for new ones. This was accordingly done

ANT CHANGE USE.

The third point that the district attorney made was that in case the board should be about the tent to the transport of the brick ones ordered by the contract the money thus seved could not be used for any other purpose than the one specified in the bond issue.

Another Louis Stone objected to the according the number of pupils from San Transfers who have enrolled in the bond issue.

Another Louis Stone objected to the according to the contract the purpose than the one specified in the bond issue.

Another Louis Stone objected to the according to the contract to be able to build an additional porch or shed to the board for the contract to be able to build an additional porch or shed to the board for the contract to will an additional porch or shed to the board for the contract to work the contract to be able to build an additional porch or shed to the challe of the contract to work the contract to be able to build an additional porch or shed to the challe of the contract to be able to build an additional porch or shed to the challe of the contract to be able to build an additional porch or shed to the challe of the contract to be able to build an additional porch or shed to the challe of the contract to be able to build an additional porch or shed to the challe of the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch or shed to the contract to be able to build an additional porch o

the regular meeting next Tuesday night
Architect Voorbies was called upon tr
make his report on the buildings in the
oourse of completion. He was said it
he considered the walls of the school
buildings atrong enough to stand a shool
such as the quake fet on April 15. He
assured the members that if the build
ings were properly braced they would be
able to stand any sarthquake. He said
that he had erected a number of buildings
in Oakland and all of them had stood
the shock well. In his report he said
that the work had been delayed on ac
count of the higher prices saked for
materials. He claims that he oan receive
no figures at all or steel work. The
price of lime is so high that it can not be
reasonably bought, continued Voorbies

RETAILERS RESPONSIBLE.

This last remark aroused a flood of
words from Mr. Boundarder.

for the children at the Unitarian Church Gymnasium and at Notre Dame Convent must be fed and there are a good many refugees quantered in private houses who get supplies daily

S NOVED HERE IMPROVEMENT CLUB HOLDS MEE HOLDS MEETING

BERKELEY, May 9 -The Berkeley East Side Improvement Club met last ALAMEDA May 9—The Elks Relief Camp stationed at San Antonio avonue and Oak street is being moved to Oak land today. The refugees who have been cared for since the holoculat of April 18th will be taken to the camp at Lake Merritt Oakland. There are about 175 scind the matter placed before the meeting of March 18, to open Regent these will have to take up their resistance. night in the chapel at the corner of

people who are still without means and these will have to take up their residence across the estuary as the Elks determined that it was best that the camp should be abandoned. The tants ternain behind for they are the property of Company G of Alameda. The Alameda militiamen gave up their tents to the homoless and worried along at first with only shelter tents. The quarantine camp will be maintained as there are one or two cases of measies in the tents. Now that the Elks camp is abandoned it is time to give meritorious praise to those who had the work in hand Great credit is due Capinin A. P. Smiley F. Moore and J. L. Daniels and all others who have participated in the relief work. When the refuges started to flock into this city the Elks at once organized a camp and have been systematically caring for the helpless and home-less.

MILITIAMEN REMAIN.

ALAMEDA May 9—Alameda Lodge, No 1015, Benevolent Order of Elks, met Monday night and elected fifty-five new members An initiation will be held on Thursday night.

MILITIAMEN REMAIN.

Company D Seventh Regiment did not break camp today as has been expected but will go to Oakland next Saturday and from these home

It is stated that regulars are coming from Texas and a company of them will be brought to this city as soon as possible to take charge of the ration bureaus. About four tons of supplies were sent to Alameda from Oakland last night and another load is expected tonight. The supplies thus sent gate the relief committee some beans and ooffee to add to the stook of flour and potatoes. There are a few other odds and ends of provisions in the Eiks store. Flour holds out better than anything else While most of the chimneys in Alameda have been repaired there is but little call for the flour. Bread is in heavy demand but a scarce. Some is secured by trading four to the local bakers.

Supplies will continue to be sent to Alameda after the refugees strike camp, SECURE EMPLOYMENT FOR MANY WOMEN

Hundreds of women have already been given work through the agency of the Free Employment Bureau and many sponses are beginning to come from the interior employers

One of the last openings comes from

Santa Barbara. Seven or sight young women may enter the training school for nurses there. The hospital furnishes board, laundry and eight dollars a month the first yes

and aight dollars a month the first year of training with an increase to twelve dollars a month the second year. Full particulars can be had at the Employment Bureau at the Starr King rooms on the corner of Fourteenth and Castro streets

Calls for workers have been also sent from Seattle

THE KING OF BLOOD PURIFIERS

No other remedy has given such perfect satisfaction as a blood purifier and tonic or is so reliable in the cure of blood diseases of every character as S. S. S. It is known as "The King of Blood Purifiers," and the secret of its success and its right to this title is because "IT CURES DISEASE." It is an honest medicine, made entirely of purifying, healing roots, herbs and barks, which are acknowledged to be specifics for diseases arising from an impure or poisoned condition of the blood

and possessing tonic properties that act gently and admirably in the up-building of a run down, weakened or disordered condition of the system.

One of the greatest points in favor of S. S. S. is that it is the only blood remedy on the market which does not contain a mineral ingredient of some kind to derange or damage the system. It is the one medicine that can be taken with absolute safety by the youngest child or the oldest member of the family, and persons who have allowed their systems to get in such condition that most medicines are repulsive to the stomach will find that S. S. S., while tho rough, is gentle and pleasant in its action, and has none of the nauseating effects of the different mineral mixtures and concoctions offered as blood purifiers.

As every part of the body is dependent on the blood for nourishment and strength, it is necessary that this vival fluid be kept free from germs and poisons. So long as it remains

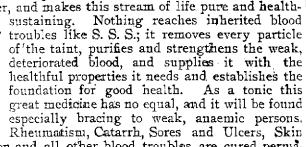

unconta,minated we are fortified against disease, and health is as sured; but any impurity, humor or poison acts injuriously on the system and, affects the general health. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of

VEGETABLE

some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Coutagious Blood Poison etc., are all deep-seated blood disorders that continue to grow worse as long as the poison remains.

But all blood diseases are not acquired; some persons are born with an hereditary taint in the blood and we see this great affliction manifested in many ways. The skin has a warxy, paillid appearance, the eyes are often weak, glands of the neck enlarged, and as the taint has been in the blood since birth the entire health is usually affected.

In all blood troubles S. S. S. has proved itself a perfect remedy and has well earned the itle of "KING OF BLOOD PURIFIERS." It goes down into the circulation and removes ill poisons, humors, waste or foreign matter, and makes this stream of life pure and health-

Gentlemen:—S. S. S. is used as a family medicine in our nome. I myself have taken and always found it what it is

Diseases, Scrofula, Contagious Blood Poison and all other blood troubles are cured permaneutly by S. S. S., and so thorough is the cleansing of the blood that no trace of the discase is left to break out in future years or to be transmitted to offspring. If you are in need of a blood purifier get "THE KING" of them all, S. S. S.—and good results are assured. Book on the blood and any medical advice desired furnished without charge to all who write.

THE SWIFT SPECIFIC COMPANY, ATLANTA. CA.

a telegram from Mr. Turber, continued on her journey to Oakland.

The couple will make their home in Ferndale, Humboldt county.

The marriage in London yesterday of Miss Delaide Bandolph and Lionel Hambert, second son of the late Earl of Cavan, is of interest to society here. The wedding took place in Trinity Church, Sloane square.

The bride is the stepdaughter of the late William C. Whitney.

Among those present at the wedding were the American Embassy, J. P. Morgan and the Earl of Cavan.

Miss Emma B. Kaufmann, daughter of Mrs. Rosalie Kaufmann, daughter of Mrs. Rosalie Kaufmann, was married at noon yesterday to Archid W. Strumer, the New York architect, who has

Competent Architects Needed.

important considerations in erecting buildings in California.

A competent architect is even more necessary, if earthquake use of unstable material.

his contract, and he cannot cure fatal defects in plans drawn by nected with the late calamity. architects who are impervious to the lessons of experience or incapacity or incapacity. The enduring test was structural strength, pal consolidation or financiering projects of the boom order. properly, balanced and adjusted to either elemental or weight strains.

The architect holds the key to the building situation in San Prencisco. His necessary aid must be the honest, competent builder -the man with brains and skill enough to comprehend the architect's plans and purposes, and honest enough to strive to carry them out. Gingerbread surface work will no longer cheat the eye into overlooking the essential of endurance.

Experience has demonstrated that the steel frame building is the secure style of building for San Francisco, but it is instructive to compare steel frame buildings planned by some architects with other steel frame buildings planned by other architects. There reliable. Others are capable but unreliable, and there are still the Visalia Delta of what the military officers in San Francisco building San Francisco.

In addition to his manifold duties as general overseer of the republic, including the Philippines and the Panama canal, Secretary Tait is disposed to take upon himself the task of censoring the American press. He has started out by lecturing the newspapers for what the big War Secretary deems reprehensible in their conduct. While Secretary Taft's efforts to do it all are to be appreciated at their full value, he should be have been directed against Governor Pardee during the past three gently, reminded that he is not the whole thing and is not expected to be. He is a good man weighing 300 pounds, but there are some things beyond his avoirdupois and cosmic activity. He should take a rest, or sit on his own lid for awhile As long as he confined his activities to running all the Cabinet departments, the Panama canal, the diplomatic service, Santo Domingo, and the work of relieving San Francisco, he was within his powers , of mind and heft of body, but when he undertakes to be a managing editor in general for the American press his job becomes rather too large even for his titanic energies Even Pooh-Bah did not presume to run the newspapers of Japan.

Secretary Metcalf's personal report to the President regarding the conditions in San Francisco will be a great aid in securing further assistance from the Federal Government. He came here and personally made an exhaustive investigation of the situation and he therefore speaks with full knowledge of the facts. Moreover, dates, but it is probable that the result may be the reverse. Secretary, Metcalf's familiarity with general conditions in California enables him to throw a light on the situation that, hardly another resentations the element of personal sympathy which is so moving and convincing. It was fortunate the President sent Secretary Metcalf out here, for the mission has resulted in his carrying back to Washington a vast fund of detailed information gathered at first

The looters and other criminals shot by the military in San Francisco have exhibited an amazing lack of respect for official County Coroner.

It is strange that the people who clamor for cheap gas never look to the politicians for it.

Newspaper Inconsistency.

That excellent newspaper, the Omaha Bee, has furnished an illustration of a form of inconsistency too common in the newspaper world. At the recent municipal election the Bee warmly supported the Republican nominee for mayor, who was badly defeated in a city normally Republican by a large majority. The day after the election, however, the Bee printed an editorial which gave convincing reasons why Mr. Benson, the candidate it supported, should have been defeated. While admitting that Mr. Benson is an honorable, trustworthy man, it pointed out that he represented only a minority faction of the Republican party and owed his nomination to a machine organization which, if not actually disreputable, had been manipulating politics and patronage in a highly objectionable manner, and, moreover, that the head of the ticket stood for policies to which a large majority of the citizens of Omaha are opposed.

Why should the Bee have expected the election of Mr. Benson under the circumstances? The fact that he is a man of good personal character would not weigh against the still more important fact that he represented an unpopular political machine and a policy objectionable to the public at large. The Bee urged its readers to vote for Mr. Benson in preference to the Democratic candidate on the ground that he was personally superior to his opponent, ignoring the fact that Mr. Benson represented policies and methods which the public disapproved and which the Bee refused to indorse. In other words, it endeavored to make Mr. Benson's personality the means of securing a popular indorsement for admitted evils.

The day is past for that sort of thing. It is futile for newspapers, however influential and widely circulated, to attempt to lead the public into a path which they, themselves have shown to be a wrong one and which the public objects to traveling. The files of the Omaha Bee contain reasons in abundance why the Republican, metropolis of Nebraska voted down the Republican ticket, and after election the Bee candidly admits the fact.

No Unnecessary Delay.

There is merit in the San Francisco Chronicle's assertion that too long delay may render an extra session of the Legislature ineffective, but it does not appear that the delay up to this Business Office and Publishing House, 413-417 Eighth St., Oakland. time has been either unnecessary or protracted. San Francisco did not cease to burn till the 21st of April. It is now the 9th of May. Events have moved swiftly, but the passage of time has been short. Before calling the Legislature to-A good deal more or less to the point is being said and written gether, it was imperative that the situation should be fully just now about honest construction in buildings. It is just as well known and the proposed measures of relief weighed and that the evils and disasters which result from scamp work in build-scanned in the light of complete knowledge and the limitations iming should be well aired at this particular time, but so much stress posed by the State Constitution. The law committee, which has should not be laid on honest construction as to obscure still more been wrestling with the extra session problem, has not concluded its deliberations or formulated its scheme of relief.

It may be added that the extra session question has been comshock and fire are to be guarded against, than an honest contractor, plicated by an endeavor to include in the call legislative questions The first requisite of stable buildings in this section of the country having not even a remote connection with the San Francisco disasis scientific plans devised and worked out to guard against the pe- ter. Local and special interests have rushed to the front, demandculiar strains to which seismic disturbance subjects buildings. No ing attention at a time when nothing should be considered save building can be depended on to withstand severe shocks, no matter measures of relief made necessary by the recent calamity: In these how honestly constructed, if the plans are faulty or provide for the impudent and shameless demands can be discerned some of the reasons why the Governor is importuned to issue a wide open call. This fact was so abundantly illustrated on the 18th ultimo that Some people would make San Francisco's extremity a means of It should have impressed itself upon every class in the community. pushing their own advantage by making the passage of relief bills Let the builder be ever so honest in following the specifications of dependent upon the enactment of other legislation totally discon-

The Governor is right in refusing to open the door to the excompetent to cope with the peculiar conditions confronting the ploitation of the Legislature for other purposes. The call should building world on the Pacific Coast. We have seen that ornate not be so worded as to permit rehef bills to be held up unless measdesigns and bizarre styles of architecture are no proofs of stability- ures having a local application in different parts of the State are often quite the reverse. After fire had swept over the effects of enacted. The legislative mill should be so adjusted that nothing earthquake shock the indelible record remained of the architect's will come out in the grist but what is needed-no schemes of munici-

The calamity, is scarcely three weeks old. Its full extent has hardly been ascertained and its effects not fully considered as yet, so busy has everybody been with the work of immediate relief and bringing order out of confusion. It is our opinion that if our San Francisco contemporary will look at the matter more calmly it will be less eager for haste. It will then appreciate the difficulties which have stood in the way of an immediate convening of the Legislature, and will, moreover, discover that the whole matter is being adjusted as speedily as is consonant with wisdom and sound policy.

Perhaps the most interesting contribution to the literature of are architects and architects. Some are thoroughly capable and San Francisco's devastation by fire and earthquake is the account in others who are incompetent. Dishonesty may or may not be coupled said to Alonzo Melville Doty and what Alonzo Melville Doty said with incompetence, but in either event the architect who does not to the military officers in San Francisco. Its accuracy cannot be know his business from the ground up should have no hand in re- questioned, because the account was written by Alonzo Melville Doty himself. We know of no other man in California capable of the performance.

> By the way, Uncle Russell Sage has not insulted San Francisc by sending any of his tainted money out here.

POLITICAL INTRIGUES AGAINST PARDEE.

One noticeable fact is that the only attacks of moment that weeks have emanated from Republican sources and have been pubished to a great extent in Republican newspapers. The Democrats have had the decency to refrain from discussing the chief executive of the State as a political candidate and have made only comment n a news way upon his work in aiding in the relief work at San Francisco and Oakland - It was realized by all who had the interests of the State or of San Francisco at heart that every municipal official of San Francisco and Oakland and the other cities of the bay, and every State official, during that trying period, needed encouragement and support in the performance of their trying duties, and that the meetion of political discussion or comment would be the creation or unnecessary embarrassments that would only be evolved in the minds of selfish demagogues.

The impatience of men who have their personal political interests at stake has led them to resume the attacks upon Governor Pardee in order to aid the interests of their own particular candi-

Probably one of the most dastardly of these attacks has appeared in a paper published at Seattle, although the article was inperson is qualified to give. He is furthermore deeply interested cited by factional opponents of Governor Pardee in his own party in the people and welfare of this State, and can throw into his rep- in this State. Such alleged political work has too much of a ghoulish appearance to recommend it to the people.—Grass Valley Union.

Santa Cruz is a lively little city, inhabited by whole-souled, hospitable people, but the seaside liden has a snake in it. The reptile hands from authoritative sources and personal observation that will is the Santa Cruz Sentinel, which published the gratintously false serve to materially enlighten members of Congress as well as the statement that THE TRIBUNE is printing photographs of the Santa Cruz courthouse taken while being repaired. This statement would be surprising in a reputable newspaper, but coming from a sheet so notoriously inveracious as the Santa Cruz Sentinel, it is what one would naturally expect. THE TRIBUNE has had no authority, in failing to report their deaths and interment to the photographs taken of the Santa Cruz courthouse, and has printed no earthquake pictures of Santa Cruz. On the contrary, we took occasion to editorially praise the pluck and enterprise of the people of Santa Cruz in sending out their annual summer advertising train as if nothing had happened to interfere with the ordinary course of events. Perhaps it was this manifestation of friendly interest in Santa Cruz that prompted the Sentinel to publish its malicious

PRACTICAL POLITICS.

A practical politician of the first water came to light in a small Indiana town not long age. In this town there is an officer designated as inspector of streets and roadways, who receives the munificent salary of \$250 a year. As the opposing political parties are very nearly balanced in this town, there is an election to fill it, there was a lively compagn for this small plum, no other elections being near. The Demorratic candidate was a rather shrewd old fellow by the name of Ezckiel Hicks and it looked as though he would be successful, as a neat little sum had been subscribed and turned over to him as a campaign fund. To the astonishment of everybody, however, he was defeated. "I can't account for it," one of the Democratic leaders said gloomily. "With that money we should have won. How did you lay it out, Ezckiel?"
"Hum" Ezckiel said, slowly, pulling his whisker. "Yer see, that office only pays \$250 a year salary, an' I didn't see no sense in payin' \$900 to get the office, so I just bought me a little duck farm instead."—Harper's Weekly.
